

Read and understand these instructions before installing luminaire. This luminaire is intended for installation in accordance with the National Electrical Code and local regulations. To assure full compliance with local codes and regulations, check with your local electrical inspector before installation. To prevent electric shock, turn off electricity at main power supply before proceeding. Retain these instructions for maintenance reference.

Vyv is not responsible for any injuries due to the improper installation or handling of its products.

NOTE: Fixtures must never be lifted from sides or ends, lift fixtures only by cradling in arms until they are supported uniformly by mounting system.

Installation Instructions

FLANGE MOUNT:

BEFORE INSTALLATION

Bring mounting yokes up through opening in ceiling, positioning "feet" of yoke along top surface of installed ceiling. (see drawing)

NOTE: Housing has 9/16" holes 6" from ends to attach housing to mounting yokes.

HOUSING AND FIXTURE INSTALLATION

Lift housing into ceiling and secure to mounting yokes. Support housing by structural ceiling. Level housing using mounting yoke hardware.

ROWS OR PATTERNS

1. Begin installation by mounting first fixture in pattern or run as described in HOUSING AND FIXTURE INSTALLATION.
2. Thread 8-32 hardware through middle-of-row end plate.
3. Lift second fixture into position, loosely connect to mounting yoke as described.
4. Thread hardware (provided) through alignment holes in adjacent fixture and tighten using nuts.
5. Repeat steps 2,3, and 4 to continue to align fixtures as they are installed in rows or patterns.
